SOIL EROSION SERVICE, CCC CAMP BOTH PROVE BLESSINGS TO COUNTY

Editor Log Cabin Democrat:

Will you please allow me a little space in your valuable paper to relate some of the happenings in this part of the country of late?

I go somewhere almost every week, sometimes two or three places each week in this and adjoining counties of vocal music. Here are questions which I am asked almost every place I go, concerning the work which the government is doing in this (Conterville) and surrounding communities:

"Well, how are you liking the camp over there - by you - by you - by you?"

"Yes, are the boys doing any good over there in the CCC camp in the way of helping the community?"

"How is the work progressing on the building of the dam over in the recreational area near you, and do you believe it will ever be finished?"

"Don't you suppose that when the dam and recreational area is completed you will have lots of undesirable people drift into your community?"

"Have you signed up as a cooperator in the soil erosion work yet?"

"Do you suppose this soil erosion work will be of any benefit to you and other cooperators in this area?"

Taking these questions one at a time in the manner listed above, this is the way I usually answer them:

1. I am liking it fine; the boys seem to be orderly and quiet enough and naturally the presence of this camp in our community brings about an atmosphere of hustle and bustle. When in the early morning the many trucks begin to hum about carrying the boys off to work, it makes us feel like we were living again back in the days of 1920 to 1925, when everybody had a job and got paid for their work.

2. In answering this question, I usually say, I will answer your question by asking you two or three questions. Do you believe that it will be any good, when 100 or 200 strong young men get out here and work a while on a few farms that are badly eroded, almost completely washed away, and build hundreds of dams made of logs, some of brush and some of stone? Do you believe it will do any good for these same young men to get out here with motor trucks and have shale (rock) and hard surface our roads? And, I understand they are going to Greenbrier with this road work. This connects this little isolated community with Conway, Heber Springs, Little Rock, and other trade centers with good roads.

3. The work seems to be progressing nicely, with lots of men at work on it. Do you believe if the dam will be completed in due time, and surrounding lands made ready for the public, the work is being paid for by the government and is going to be something that we people of Centerville community should be (and I believe are) very proud of.

4. No, I do not, I believe that the people who come here for recreation picnics and outings will be of the highest characters, will be among the best citizens of this and other states, who want to take a little time off from their work and rest and play a while.

5. Yes, I am one of the first to sign a cooperative agreement with the government in the soil erosion work, and the work already done on my farm, advice given, seed and tools already furnished (with more to follow), have been worth lots to me. I am very glad to cooperate in this work.

6. I am sold on the idea of soil erosion control. Take a look at our terraces that we have built, just after a rain, and note the small pools of water standing along. Isn't it reasonable to believe that if crops were growing this water would do them lots more good than if allowed to run off the ground as soon as it falls, to say nothing of holding our soil. It also seems reasonable to me if one builds terraces, dams and other structures to hold the water where it falls, we will be helping our neighbors in the lowlands by keeping his lands from overflowing with this water. Numerous other benefits of lasting value could be mentioned.

And now after answering these six questions, I wish to say that in our own immediate community it is easy to notice a great difference in our people. It seems that since all this work has come here the people work with more zest and zeal. It seems they work with a greater purpose. It has brought back life to the people of this and surrounding communities. Of course, everybody can't get a job. I remember back in the late summer when the CCC camp was being built, about the second or third day, after all the men had been put to work that was needed. I counted 150 more men on the grounds wanting to work. One of the best things I have heard our president say is that every able-bodied person must have employment.

But back to the things that are being done in this community. With all the work the people got building the CCC camp, with all the work they are getting building on the soil erosion control, along with some rental checks, also parity and sale of bankhead allotment certificates, with a number of other benefits from the best government on earth, and numberless blessings from a bountiful Giver above, it seems to me that we should begin singing "Happy Days Are Here Again."

CATTLE TESTS ARE CONTINUED

Additional Schedule Is Announced

Compulsory tuberculin tests for cattle in Faulkner county, started this week, will be continued next week, and Dr. R. A. Dickson, in charge of the campaign, today announced assembly places for the last week of the tests.

Owners of cattle are asked to have their stock at the assembling places promptly at the time designated.

Dr. Dickson is being assisted by Dr. J. L. Hargett, Dr. W. M. Hildgens, Dr. Arthur Stigers and Dr. Roy A. Loiler, all veterinarians connected with the animal husbandry department of the United States department of agriculture.

Twelve additional veterinarians will assist in the work next week.

The final schedule is as follows:

E. Blessing, Conway, Route 4, February 4, 8 a. m.

J. W. Grady, Conway, Route 1, February 4, 11 a. m.

Arthur Diehl, Vilonia, Route 4, February 4, 1 p. m.

J. L. Carroll, Conway, Route 4, February 5, 8 a. m.

Lee Thompson, Vilonia, Route 2, February 5, 11 a. m.

D. O. Simmons, Vilonia, Route 2, February 5, 11 a. m.

J. H. Hegl, Vilonia, Route 2, February 6, 8 a. m.

Lewis Powell, Vilonia, Route 2, February 6, 11 a. m.

Tom Hill, Vilonia, February 6, 1 p. m.

George Horton, Vilonia, Route 2, February 4, 8 a. m.

J. F. Cartwright, Vilonia, Route 2, February 4, 11 a. m.

J. A. Moncrief, Cabot, February 4, 1 p. m.

Earl Johnson, Vilonia, Route 2, February 5, 8 a. m.

E. R. Wilson, Vilonia, Route 2, February 5, 11 a. m.

W. I. Stanley, Vilonia, Route 2, February 5, 1 p. m.

Lester Scott, Vilonia, February 6, 8 a. m.

Claude Birdman, Vilonia, Route 2, February 6, 11 a. m.

A. A. Goss, Vilonia, Rt. 3, February 6, 1 p. m.

J. A. Presley, Mt. Vernon, February 4, 8 a. m.

S. H. Keathley, Enola, Rt. 1, February 4, 11 a. m.

J. E. Rea, Mt. Vernon, Route 3, February 4, 1 p. m.

J. E. Davidson, Mt. Vernon, Route 4, February 5, 8 a. m.

Will Bean, Mt. Vernon, Route 4, February 5, 11 a. m.

J. E. Barrett, Mt. Vernon, Route 2, February 5, 1 p. m.

J. M. Walter, Mt. Vernon, Route 1, February 5, 8 a. m.

W. D. Strain, Quitman, Route 3, February 6, 11 a. m.

Minor Lester, Quitman, Route 3, February 6, 1 p. m.

Arthur Bell, Enola, February 4, 8 a. m.
